

Conrad Schools of Science

An accelerated middle school program to prepare students for the rigors of the high school.

Program Highlights

- Diverse student body representing more than 20 elementary schools
- Block scheduling conducive to science offerings
- Accelerated Math and English Language Arts instruction to prepare students for high school
- Caring and safe environment with a dress code
- 100% of teachers are highly qualified and use technology to create lessons involving rigor, relevance, and relationships
- Guest speakers from the Biotechnology and Allied Health Care fields
- American Red Cross babysitting and pet first aid certifications
- Extra curricular clubs and activities aligned with the science magnet
- A competitive interscholastic athletic program
- Advisory Program - a twice weekly interest and needs-based program that supports healthy social, emotional, and academic development, mentoring, and guidance. The program matches Conrad teachers with groups of students with similar interests.

- Plant and Animal Science
- Anatomy and Physiology
- Technology
- Intro to Coding
- Applications of Bioscience

Traditional Electives

- Band & Chorus
- Spanish
- Chinese
- Business Education
- Phys. Ed & Health

Block Scheduling

Conrad utilizes an A/B block schedule to maximize learning. Students have four 90 minute block periods between 7:25 am and 2:15 pm.

English Language Arts & Math are scheduled every day, effectively doubling the instruction students receive in these key subjects. This allows students to complete high school Algebra I & Geometry during middle school years.

Social Studies, Science, and exploratory arts classes rotate on an A day / B day schedule. The 90 minute block allows all classes to delve more deeply into subject area content, and there are fewer class changes daily.

A life science magnet school at the center of a traditional secondary school experience

Our VISION

Conrad Schools of Science will empower students to achieve their goals and impact the community.

Our MISSION

Teaching life science and life lessons in a kind and inclusive environment, inspiring students and improving the world.
