

There are 3 Family Options as You Decide the Best Choice for Your Family

1. **Accelerated Education**-Asynchronous format (independent self-paced)

Must specifically call the school for this option. This is a specific online program offered by the district. Your child can do his/her work at any point during the day.

1. **Zoom**-Similar to the current format-Math/ELA District curriculum will be used. (Other areas will be asynchronous. That means your child's learning experience for science, SS and unified arts **will be** independent self-paced).

Required screen time will not be as long or as consecutive as it is now.

You will have a Red Clay teacher support, but it **may not** be your child's current teacher.

Your child will receive face-to-face time with a teacher, but not as much time as they have now.

This is a K-5 option only.

1. **On Campus**-Return to the building.

Face to Face learning experience.

Your child **may not** have his/her current teacher.

When making your choice online, it will still only use the terms **online** or **on campus** (with/without transportation). So, it will still appear the family only has 2 options; however, your online option has now been enhanced.

How do I choose the best option for my child?

1. **Accelerated Education**-The original questionnaire stated that online learning was Accelerated Education; **this is no longer the case**. Online now means your child will be on zoom unless; the family contacts the school and specifically requests Accelerated Education. (302-992-5535)

1. **Zoom**-If you do not complete the district preference questionnaire or **if you originally chose online learning** for your child, this will be your automatic option. You **may not** have your child's current teacher. If you continue to like zoom as an option, **no need to take new action**. You do not need to call or change your questionnaire information.
1. **On Campus**-Your child will return to Richey, but **may not** have his/her current teacher. CDC guidelines will effect. 6ft in the cafeteria, students will be socially distant during the school day and during activities. Your child will be required to wear masks and handwashing/hand sanitizer will be reinforced. If you have chosen this option, be sure to share your transportation intentions. Does your child need transportation? Families need to clarify this need on the family questionnaire.

This is a 2nd MP commitment. (November-January)

Families can change their option until 10/9---11:59 am

I hope you find this information helpful as you make your family decision.
