

Policy for Returning to School following Accident, Childbirth, Hospitalization, Injury

Please communicate with the school nurse so that I can provide appropriate follow-up treatment and accommodations for your child when they return to school. A student may only be re-admitted or enter school after an accident, childbirth, hospitalization or injury after submitting the [Students Returning to School Following Accident, Childbirth, Hospitalization or Injury Form.](#)

This policy is in alignment with the Red Clay Consolidated School District Superintendent's policy.

Please feel free to contact me if you have any questions.

Donna L. Watson R.N.
